About Magis

Magis is the brand that has given a novel twist to domestic design, building its identity on incorporating leading edge technology into mass production. Magis is 32 years old. Until a short while ago Magis was one of the few companies that manufactured objects in plastic. Today the number has increased considerably. Still, Magis uses the most advanced moulding technologies and techniques; it was the first company in the world to apply air moulding to aesthetical goods.

Finish Options

Overview

The boogie woogie stacking and adjoining shelving system, designed by stefano giovannoni for magis, creates the perfect opportunity to get back in touch with those building block skills you honed as a child. Each cube of the 'boogie woogie' allows back to back compositions for deeper shelves. customize them to fit your space, create a new wall or room, not to mention all sorts of unique designs on a whim.
